DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1 recites the limitation "said first bone" in line 1. There is insufficient antecedent basis for this limitation in the claim.
4. Claim 2 use of the term "said hollow head for engagement" is awkward and unclear.
5. Claim 4, line 1, should use the singular version of the term "tools".
6. Claim 7, line 2, "having a front surface and a back surface" appears as a double inclusion of line 1.
7. Claim 9 recites the limitation "said magnet system" in lines 28 and 29. There is insufficient antecedent basis for this limitation in the claim.

Specification

8. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

Drawings

9. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81. No new matter may be introduced in the required drawing.

10. Claims 1-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

11. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to teach or suggest of record failed to teach or suggest the method and apparatus for utilizing a kit comprising a centering jig; a first magnet insertion tool; a second insertion tool; and a fork jig as recited by the claims. Claims 9-11 include steps in addition thereof utilizing the apparatus and in conjunction with drilling.

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gibson et al., Peckham et al., Nelison et al. and Peckham et al. disclose relevant art to the instant application.
